CLEAN UP OF CITY PROPOSED BY COUNCIL

(Continued From Page 1)

Councilmen Hugh Allen and A. L. McDowell asked for information concerning their duties as chairman of the Health and Police and as Chairman of the Water Committee, respectively.

"All kinds of people have come to me with specific complaints about filthy conditions in various parts of the city," said Councilman Allen, "and I want to know what I can do about it. Must I see the health officer or can I inform the police officer, and have him see that the nuisance is removed, or shall I inform the recorder and have him notify the person offending?"

This question was followed by the

Councilman McDowell query as to the duties of the Chairman of the Water Committee, and opened the ball for a general discussion of conditions over the city.

The questioners were informed that as a general rule their committees were empowered only to investigate and recommend action to the council, save in emergencies when they were empowered to act.

Dr. Whitney, City Health Officer who was present discussed the attempts which have been made to keep the city clean and declared that sporadic attempts would not bring the desired results.

"It must be some one's duty to keep after the filth problem," he said. "We have heretofore attempted about twice a year to have a clean up, and in a week following one of these crusades the conditions were as bad as at the beginning."

"The alleys should be gone over every week by some officer and the offender checked up constantly."

Must Have Cows Tested

While the health question was up the fact was brot out that milk is being sold promiscuously in the city from cows that are not tested. This is an offense against the state law, but the city has never attempted to enforce it.

Having had an idea of how many health problems there will be to solve the Council decided that the Health committee hold a special meeting this week to consider suggestions and be ready to report to the next meeting of the council which will be held on February 17.

This is a special meeting which was called to act upon the petition of property holders in the northwest section of the city for a lateral sewer connection.

THE TURN FROM WAR TO PEACE AND LOWER PRICES

Men who conserved and saved during war times now reap the harvest of patriotic thrift in this
